

As a taxpaying citizen of the United States, I am writing to express my disbelief and anger over Sinclair Broadcasting's unparalleled imperative that they recently issued to their stations to pre-empt regularly televised programs in primetime in order to air an anti-Kerry documentary.

This is clearly in breach of numerous U.S. laws regarding the use of public airwaves. This is also a flagrant attempt to disrupt American elections by engineering a negative propaganda campaign against the opposing candidate.

Please do everything necessary to stop this from occurring and, if Sinclair continues to illegally engineer elections they should be fined and penalized to the full extent of the law.
